# KJPE 2014

## The 3rd Korea-Japan Conference on Plasma and Electrostatics Technologies

November 5-7, Jeju | Republic of Korea

### WELCOME

The 3<sup>rd</sup> Korea-Japan Conference on Plasma and Electrostatics Technology will be held in Jeju, Republic of Korea, on November 5-7, 2014. The major objective of the meeting is to promote communication between young plasma researchers in Korea and Japan. This meeting will cover several critical issues on plasma science and applications, such as recent research topics in Korea and Japan, fundamentals of plasma sources, electrostatic precipitation technology, diagnostics/simulation of plasma, industrial applications, and plasma catalyst interactions, etc. We will also help you to have a great time in Jeju island, Korea.

### Conference Organization

This meeting is supported by Korea Institute of Plasma Application Science & Technology (KIPAST), Institute of Electrostatics Japan (IESJ), Korea Institute of Machinery & Materials (KIMM), National Institute of Advanced Industrial Science and Technology (AIST), and Korea Research Council for Industrial Science & Technology (ISTK).

### Meeting Topics

Plasma Sources & Plasma Processing  
Electrostatic Precipitation  
Industrial Plasma Applications  
Biomedical Applications / Water Treatment  
Any New Topics in Plasma and Electrostatics  
Special Session - Plasma-Catalyst Interactions

### Social Events

Welcome Reception  
Best Student Paper Awards Banquet  
Excursion (TBD)

**Detailed information including technical program, invited speakers, registration, venue, travel, and abstract submission deadline will be announced at a later date.**

### Contact

**Dr Young-Hoon Song** | Conference Chair | KIMM, Korea  
**Prof Jung-Ho Hwang** | Conference Chair | Yonsei University, Korea  
**Dr Hyun-Ha Kim** | Conference Chair | AIST, Japan
