

# Plasma and Electrostatics Technologies for Environmental Application (PETEA 2015)

10-11 December 2015 (Kyoto, Japan)

## First Announcement

### Welcome

It is a great honor and pleasure to invite you to participate in the “4<sup>th</sup> Japan-Korea Joint Symposium on **Plasma and Electrostatic Technologies for Environmental Application 2015 (PETEA 2015)**” to be held on December 10-11, 2015 in Kyoto Japan. After the first working group meeting in Jeju (November 22-24 2012), the conference has been held annually moving back and forth between Korea and Japan. In the meeting, several ongoing critical issues on plasma science and applications will be discussed, such as diagnostics of plasma, commercialized plasma technologies, bio-, medical-, and environmental applications. We hope you will enjoy participating in the joint symposium in Kyoto, Japan.

### Meeting Topics

- Biomedical Application
- Electrostatic Precipitation (ESP)
- NO<sub>x</sub> and PM control
- Plasma-assisted Combustion
- Plasma Fundamental and Diagnostics
- VOC and Odor Control
- Water Treatment
- Any New Topics in Plasma and Electrostatics

### Important Dates

Abstract	30 September, 2015
Paper (proceeding)	1 November, 2015
Registration	10 December, 2015
Full Paper	31 December, 2015

### Organizing Committee

Akira Mizuno (Toyohashi University of Technology)  
Tomohiro Nozaki (Tokyo Institute of Technology)  
Hyun-Ha Kim (AIST)  
Young-Hoon Song (KIMM)  
Jung-Ho Whang (Yonsei University)

### Venue

#### Kyoto International Conference Center

(<http://www.icckyo.or.jp/en/index.html>)

Room C

### Language

English
